ON THE RAILROAD. ON THE RAILROAD.

A BEAUTIFUL site for a Town in Woodford county, has been laid off into Lots by
the Railroad Company. The tract of land was
lately owned by Colonel Francisco, and lies on a
permanent stream of water, called Lee's Branch,
about midway between Lexington and Frankfort, and equi-distant between Versailles and Georgetown,-the public road to and from the latter towns, crosses the Railroad through the tract at right angles. Lots in this town will be offered for sale at auction, on the 2c day of May, under the superintendance of a Committee of the Board: one third of the purchase money will be required in hand, and the balance in equal payments at one and two years credit. The position is deem-ed the most eligible on the line of road for the lieved that mechanics and manufacturers will at combines. It cannot fail to attract the attention of a sufficient number of persons to make it at once a respectable and flourishing country village, and in the course of a few years, perhaps, one of the largest inland towns in the State. The neigh-borhood is composed of wealthy and enterprising farmers, and the tract of country is unsurpassed in

HE central position of Bordentown, its singuthe principal cities in the Union, have long marked it out as a most eligible location for seminaries of learning. For the information of those who nave learning. For the information of those who have not visited this town, the following extract from the Right Rev. Bishop Dean's last conventional address, is here inserted;—"There is certainly no place in the whole country, better fitted for the establishment and support of schools and seminaestablishment and support of schools and semina-ries of learning, than Bordentown. Most heauti-ful for situation, proverbial for health, at the head of steamboat navigation, on the Delaware, and accessible twice in every day from New York, and from Philadelphia, the ground has but to be bro ken to ensure the most abundant harvest." Reverend Mr Arnold, A. M. of the University of Windsor, (Nova Scotia,) respectfully announces to the public, that arrangements have lately been completed for the establishment of a boarding, and day school here, which, (God willing,) wi be ready for the reception of pupils on the first day of May. The building which has been procured for the purposes of the school, is situated near the bank of the Delaware, more than sixty feet above the surface of the water, surrounded b ercises, and commanding an extensive prospect of the river and surrounding country, which, in beauty, richness, and variety of scenery is not surpas-sed by any in America. The school rooms are large and commodious, and the dormitories, which are spacious and airy, are sufficiently numerous to contain a hundred boarders. The whole estalish ment is every way adapted to its destined purpose.

Mr. Arnold is happy in having in a member of his own family, a lady who has been long accustomed to the demestic care of youth, and who, from her amiable character and mild disposition, is pecu-liarly qualified for this office, while her natural and tender fondness for children will lead her almost spontaneously to use every means to pro mote the the health, comfort, and convenience o the pupils. The most able and accomplished teachers will be employed to instruct in the various branches of useful and ornamental knowledge nor will the morals of the pupils fail to receive that watchful attention which is due to their paramount importance,—for "what is good learning without good morals?" Suicide. - Mr. John Colvin, a wealthy and respectable inhabitant of the town of Macedon, put an end to his existence yesterday morning by hanging himself. The unfortunate man had for some time past betrayed evidences of mental derangement, but it was vainly supposed that he was recovering from his allenation. His loss is a severe affliction to his bereft family, and a large circle of relatives and friends.

The Western Argus copies the preeding paragraph from the Wayne Sentinel, and then makes the following comments:

We have known Mr. Colvin for some cars past; and it pains us to say that he as literally fallen a victim to the efforts of the panic makers. He has resided in Macedon for a number of years previous to the fatal winter of 1833-4, where he was much respected as a leading memper of the society of friends, and where he had accumulated a large property. In September, 1833, he sold out his property in Macedon, and purchased about our hundred acres of land in Marion. This purchase left him in debt, in a small amout. When the panic commenced, Mr. Colvin became alarmed at the prospects before him; and, though abundantly able to meet all his pecuniary engagements, its influence upon his mind was such, as in a great measure, to prostrate is reasoning faculties. In this situation ne remained, paying but little attention o his business affairs, until some time ast winter, when he sold out his new urchase, and re-purchased his old farm n Macedon, at an immenso sacrifice. The remainder of his history is before us. John Colvin has fallen a victim to the lefforts of the punic makers.

The one takes a guide or teacher of the way, who places him in a carriage, and hurries him at the rate of one hundred miles per day, from one point to the other in a manner, which neither offords him time nor opportunity to observe the objects, the scenery, nor the branching roads at different points as he proceeds. In ten days, he will have travelled over the whole; but is it therefore to be supposed that he has become acquainted with it? Or may he not have travelled over the whole, without acquiring a knowledge of scarcely any part. If from having travelled it he has become to know the road, he is enabled to pursue it from point to point, without wandering from the track or becoming bewildered. But the fair conclusion is, that putting er, he would not know more than one tenth part of it; and that he would not be able to pursue without deviating from the track, the first ten miles from the place where he set out. The other takes a guide, who causes him to travel on foot or on horse, at the rates of twenty four miles a day, thereby giving him the opportunity, minutely to observe all the circumstances of the way, and pointing the track. It would, at least be a fair conclusion, that from travelling in this manner, over two hundred and fifty miles of it, with two hundred miles of the road; and therefore the knowledge which he would acquire from going over one fourth part as that acquired by the other from travelling over the whole. But whilst the one, seated at his ease in his carriage, ccompanied by a guide careless and unanxious about the fate of the traveller when left to pursue his journey alone, progresses capidly and easily along, with out the lobour of observing, meditating upon, or endeavouring to retain in memoy the particulars of the way, -the other accompanied by a guide solicitous for the no important circumstance or particular object should be overlooked, pursues his way with a pace, at once slow, laborious and toilsome alike to his guide and to himself; but particularly beneficial to himself, as it secures to him all the advantages and conveniences resulting from a knowledge of the road in his future journey, whilst it protects him from those dangers and

On the last page of our paper to-day will be found the nomination of Daniel Webster, for the next Presidency, by the Whigs of the Massachusetts Legislature, and their address to the People of the

United States, to enforce his pretentions. Who would have believed twenty-two years ago, when the same Daniel Webster, then a member of Congress, and that in order to close its concerns at the end of that straining every nerve to embarrass the term, the reduction must be made at the rate of Government in its prosecution of the war against Great Britain, could ever have the temerity to permit his name even to be thought of for the high station to which he now aspires?—And who could have imagined then, that any set of men, cal ing themselves friends of their country or the Constitution, could have the audacity ever to recommend such a man to the American People for President of this Great Republic! Was it then that "he sustained the executive" in its patriotic zeal? Was it then "he stood in the breach when the storm burst?" If it was not then, when was it? Was it in his memorable speech on Foote's Resolution, when he boldly advanced the old federal doctrine of consolidation? Was it in his speech on the Bloody Bill, that blot upon the statute book of the nation? Or was it in defence of the United States Bank, where his zeal to rivet the chains of despotism upon the peeple, induced him to overstep the bounds of truth?

Again we would ask of the Whigs of the Massachusett's Legislature, of his friends in Louisiana, where and when has Daniel Webster shewn by word or deed, attachment to the Constitution or even to his country?
